

PARKING LOT EQUIPMENT

Tables and benches for parking lots and street furniture in every dimension

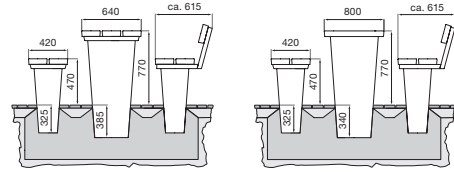

High demands are made in our today's society to parking lot equipment. As a specialized company for road equipment Beilharz also offers high quality products for parking lots. The benches are supplied with massive wooden coatings from German Douglas or plastic recycling overlays with steel reinforcement. The tables are supplied with either a solid slab of granite, wooden coatings or plastic

recycling overlays. On the stable concrete bases of high quality exposed concrete, the coatings are firmly anchored. Selected materials and careful workmanship guarantee a long endurance.
