

GRASS STOP PLATES

Grass stop plates are synonymous for economic and environmentally conscious working, as they prevent the framed objects from plant growth. In addition the cost-intensive and time-intensive extra-mowing by hand is being reduced and the use of herbicides is being limited.

TYPES

■ Grass stop plates for delineators (round)

- Round grass stop plate Ø 500 mm with a cut-out in the middle
- Grass stop plate completely closed
- Suitable for all triangular delineators
- Cut-out with clamping-effect
